YOUR YEARLY RELATIONSHIP FORECAST

People change, sometimes dramatically, sometimes subtly. When people form a close relationship, their individual evolution can affect the stability and harmony of their partnership.

Please, keep in mind that the core numbers in your profiles (your Life Path, Expression, Heart's Desire, Personality, and Birth Day number) tend to carry more weight than cycles do. However, cycles, like your Personal Year cycle, can cause upheaval in areas where you previously had no issues. When that is the case, try to remember they are most likely temporary.

WORLD NUMEROLOGY

Relationship Compatibility Profile

HAFEEZ N & HAFEEZ N

By Master Numerologist Hans Decoz | worldnumerology.com

THE LIFE PATH

Your Life Path number is considered the single most significant information available in your Personality Chart. It is derived from the total of all numbers found in your date of birth. However, it is important to keep in mind that the aspects described in the next few chapters will either complement, supplement, or sometimes weaken the attributes revealed in numbers derived from your name.

, your Life Path number is 3

You possess a great talent for creativity and self-expression. Many writers, poets, actors and musicians are born under the 3 Life Path. You are witty, possess a gift for gab, and savor the limelight. Your talent for the expressive arts is so abundant that you may well have felt drawn to becoming an artist while still very young. Your artistic abilities can only be developed, however, through discipline and commitment to the true development of your talent. Commitment, concentration and hard work are the only means of bringing forth your talent.

Thanks to your gift for self-expression, you can be the life of the party, and the center of attention. However, you could easily squander your talent by becoming a social butterfly. Your creativity is the gift that can give you the comfort and luxury you desire, but not without continual focus and discipline. You are optimistic and possess the resilience to overcome many setbacks.

You are socially active, popular, and inspire people with your sunny "happy go lucky" attitude. You can be generous to a fault. Many people born under the 3 Life Path have difficulty handling money because they can be disorganized and not particularly serious about their responsibilities. You are emotional and vulnerable. When hurt, you withdraw into a cloud of silence, eventually emerging from your reticence with jokes and laughter that cover up your true feelings. You can become moody and cynical when depressed. You can succumb to sarcastic remarks, which can be painful to those around you.

When used positively, your talent for self-expression can be a great inspiration force in the world, uplifting others, and bringing much success and happiness to you.

HOW YOUR LIFE PATH NUMBERS COMPARE

Your Life Path number is the most important influence in your chart. As such, their compatibility is very important to the well being of your relationship.

and , your Life Path Compatibility is 3 and 3

and , you both have the creative, happy-go-lucky 3 in this part of the chart, which indicates you carry on lively conversations and inspire and motivate each other in an energetic environment. You joke easily and appreciate each other's humor. You enjoy one another's company while still participating in an active social life.

On the surface, there is little negative to say about this combination. However, a deeper look suggests that unless you consistently work on it, the happy-go-lucky nature of your relationship could become the root of persistent problems. Sharing the 3, you probably both tend to gloss over rough spots that emerge. This area of the chart indicates a strong preference for reveling in the sunny days without noticing the shadows you cast. It is important that you address relationship issues as they arise before they accumulate and become insurmountable.

The influence of the 3 is only dominant in some aspects of your relationship; other more serious numbers also play in your chart. They can help you work through the emotional turmoil that is inevitable. Watch for subtle signs indicating something might be bothering your partner because, although you are both excellent communicators, you do not always use this talent to express your deeper, private, feelings. Stay attentive. If you suspect something is up - even though your partner appears happy-go-lucky - take time to have a frank and intimate talk about what is going on.

Another potential issue for this combination is that fun can become too high a priority, overshadowing important responsibilities and duties. The number 3 is scattered, unfocused, and impulsive, all common traits in creative people and the creative process. The 3 lets the mind wander in search of new, creative ideas. However, without effort and discipline those traits can work against you. To create the material security that will allow you to experience the fun and joy you both desire, you may need to remind one another to stay focused and keep your eyes on the prize.

and , you clearly have many compatible aspects in your relationship. Just ensure you guard against the less desirable traits of the 3 (irresponsibility, lack of focus, and a sometimes-frivolous attitude).

THE EXPRESSION

Your Expression number, calculated from your full name at birth, reveals the orientation or goal of your life. Some numerologists refer to this as your Destiny number because it represents a lifelong target at which you are aiming. Thus, the Expression number, to some extent, reveals the person you aim to be.

Your Expression is the most influential of the three characteristics that make up who you are. It is also the number with the most influence on your choice of career, although other aspects are important as well.

, your Expression is 2

You have a great talent for working with others; you possess tact and refinement. You have a highly developed intuition. This provides you with insight into personalities and situations. Therefore, you act with tact and subtle persuasion. You possess a kind of radar, avoiding the landmines within another's personality, yet bringing out their goodwill. These abilities make you the perfect diplomat. You are a good counselor with an inborn talent for psychology and finely tuned intuition.

Your abilities are better expressed while working with others than by working alone. In the same way, you perform better in a partnership than in a leadership role. You seek balance and peace in all relationships and situations. The key to your personality is sensitivity, but there are two sides to the coin: You are able to perceive the thoughts and emotions of others and can work gently with others for a mutually shared goal. This makes you a great asset in any group endeavor. However, your sensitivity makes you vulnerable. You can be thrown off balance by an unkind word, a conflict, or by hostile conditions at work. You are far more upset by these conditions than people without your sensitivity. While others appear to be enduring troubled times with a modicum of turmoil, you suffer the turbulence of life as if your very survival were at stake.

In difficulties, you tend to persevere and steadily erode the resistance. You are like a gentle wind that shapes the rock.

You are friendly and open-minded. You are a great support person, pulling the best out of those around you. You are the power behind the throne. You are indispensable to the leadership of

another, providing insight and advice that is essential. Yet, despite the invaluable service you provide, you often do not get the credit and recognition you deserve, which can be frustrating. Your natural modesty and the enjoyment you get from being an important asset is usually satisfaction enough for you.

Close relationships are essential to your happiness. When single, you dream of finding your "soul mate." When married, you are concerned with your spouse's needs, emotions, and thoughts. You are an outstanding marriage partner, giving, thoughtful, and conscious of meeting the needs of your loved one. You provide great support for your spouse's career. You are a passionate lover.

Parenthood is not an easy role for you, probably because you lack the will to enforce discipline and need a tranquil, delicate, and harmonious environment.

You are blessed with a high degree of musical talent. You have a good sense of rhythm and harmony.

, your Expression is 2

HOW YOUR EXPRESSION NUMBERS COMPARE

More than any other number in your chart, your Expression number reflects who you are as a whole person on a deep level (rather than the "face" you show to the world, described by your Personality number).

It cannot be over-emphasized how important it is to recognize that the same number in a different area of your chart will affect you differently. There may be times you read something that seems to directly contradict an earlier statement. Yet, if you take time to carefully think about the opposing information you might recognize that, being the complex individual you are, you carry the same contradictions. This is natural and true for all of us. You may excel at organization in one area of your life, while chaos rules in another. You may be tactful and sensitive in one setting, but direct and confrontational in another.

Be aware that it is more difficult to overcome negative traits you recognize in yourself when they are found in this part of the chart, than when they are found under the Life Path description.

and , your Expression Compatibility is 2 and 2

This aspect of the chart tells us both of you have a sensitive, vulnerable side. Sometimes this is favorable, but it can prevent issues from being resolved. There may be occasions when you step around issues too carefully, concerned about hurting the other. This can cause issues to fester and erode the foundation of your relationship. Try not to walk away from problems because you do not want to rock the boat. It is almost always better to face them head on. Although your concern about your partner's feelings are sincere, you should both guard against avoiding confrontation altogether.

As two people who experience emotions deeply, you are likely more vulnerable to criticism than others. This is another contributing factor in your tendency to avoid taking on important issues. If this type of avoidance persists, especially if unresolved issues have festered, you might lash out with a "below-the-belt" criticism, expressing your anger in a way that can be harmful to your relationship. This in turn makes it much more difficult to resolve underlying problems.

We all look for things we have in common, with the hope it will enhance our relationship. But the fact that you both carry a 2 in this area of the chart does not necessarily translate into an advantage. On the positive side, you easily relate to each other's emotional experiences. On the negative, your ability to commiserate can mean you are unable to "talk your partner down" during a highly emotional event.

and , your numbers suggest you both have the potential to use the occasional trivial lie to circumvent what you perceive as dangerous territory. This is not always a bad thing. However, unless other numbers in your chart support your ability to confront things directly when simple tact and diplomacy are not sufficient, you may end up creating distance without meaning to. Without open communication, you live in separate worlds. If you have the type of relationship where partners live their own life quite happily, this will not be as much of a concern. However, the fact that you are both people of the heart makes that scenario unlikely.

The key to maintaining a healthy relationship when both partners carry a 2 in this part of the chart is to recognize the need for scheduled heart-to-hearts. When an issue arises discuss it openly and frankly; try to avoid impulsive, dramatic discussions. Instead, let your partner know something is bothering you and ask for a good time to discuss it. Create a setting: make a cup of tea, sit in comfortable surroundings, and begin by confirming your love and commitment. Combining respect, care, and direct, honest communication can help you form a deep, long-lasting relationship.

THE PERSONALITY

The consonants of your full name at birth are the foundation of your Personality number, which is a little like a narrow entrance hall to the great room that is your true nature. It's the outer layer of your personality, the part you feel comfortable sharing. With time and trust, you invite others into the deeper aspects of your nature.

Your Personality number serves as a censoring device in terms of what you send out, as well as whom and what you allow to approach. For this reason, your Personality is usually narrower and more protective in its definition than the real you. It also gives an indication of how others perceive you.

, your Personality number is 9

You have an impressive and aristocratic bearing. No matter how tall you are, you appear noble and upright. You are very much in control of the image you send out to others. Many actors, dancers, and other performers have a 9 Personality Number.

You are elegant, graceful, and charismatic. Many admire you. You have the kind of stature that pulls people to you or repels them intensely. Some are jealous of you and may seek to belittle you. You may encourage this to some extent by the amount of arrogance you radiate. This is a caution for all 9 Personalities -- they are sometimes aloof and hold themselves above the world. Your challenge is to come down to earth with your fellow man.

Conversely, you have a great compassion for humanity and want to dedicate yourself to improving the lot of others. You are better when dealing with the trials of the many than the trouble of a single person. You are more capable of working on the grand scale, addressing the needs of society, than on a one-to-one basis.

You are kind and sympathetic, helpful and compassionate. Behind the controlled and calm facade, you are sensitive, vulnerable and emotional.

You have excellent taste. There is a good deal of artistic talent in you that shows in your home environment and your clothing. You tend to see yourself as a guardian of society, a benevolent leader, guiding and directing your community toward a better world.

, your Personality number is 9

, your Personality is also a 9; the same as 's

HOW YOUR PERSONALITY NUMBERS COMPARE

Your Personality is the first aspect people notice when you first meet. Very few relationships have a chance to progress if their Personality numbers are not compatible.

and , your Personality Compatibility is 9 and 9

and , this combination often creates a partnership that goes well beyond romance. Both idealists, you are sufficiently focused and have enough clarity of purpose to devote your life to a single goal, paying little or no attention to the monetary aspects. Contrary to what one might expect, this often results in financial prosperity, although not usually until somewhat later in life.

Most likely, the recognition of your similar outlooks was responsible for the initial attraction between you. Mutually inspiring endless conversations likely helped you feel your dreams were attainable and something you could pursue together. Your bond is strong and should not weaken over time since you thrive on sharing each other's experiences. Your compatibility is powerful and strengthens each of you as individuals. You may find yourselves choosing almost identical careers, perhaps even within the same organization or institution. Each of these similarities makes others see you as an unbreakable couple.

However, some pitfalls may exist, even in this extremely compatible combination. and , in extreme cases, the number 9 shows a tendency to believe in concepts and ideals to such an extent that it becomes an obsession. Self-righteousness, narrow-minded thinking, and religious fanaticism are common, nor are arrogance, pride, and a superficial confidence. This helps explain the fact that the number 9 is often found among political and religious extremists. Excessive belief in your ideals could also cause problems in your relationship, especially if your concepts differ or you devote 'too much time' to an organization or study your partner does not support. It is important for both of you to remain open to the ideas of others, to respect differing opinions, and to remain humble.

and , the only real danger in a relationship between 9's found in this part of the chart appears when one or both of you loses the ability for honest self-criticism and self-examination. It is essential to keep in mind that even with idealism, moderation is required - in fact, it is the keyword to safeguarding this otherwise excellent number combination.

and , this combination has the potential to create distance between you. This is not because you suddenly have less interest in each other, but because your cycles produce interests and concerns that lead you in different directions.

For you , it is a time to deal with mundane, practical matters (which you could find boring and frustrating). The 7 in 's cycle is focused inward - a period for quiet contemplation, daydreaming, doubts, questions, and learning more about who they are. It is not difficult to see how the differing needs inherent in your cycles might create some distance.

Sharing your feelings and giving each other room to pursue individual interests can help alleviate stress in your relationship, and help you take advantage of the progress this cycle has to offer.
